

Australasia Corneal Transplants

These figures represent the number of corneal transplants performed in each State. The States TAS, ACT and NT do not have an Eye Bank but perform transplants from corneas derived from another State. The terms EXPORT and IMPORT are restricted to corneas transferred between Eye Banks. Corneas exported by one Eye Bank to another Eye Bank and transplanted in the receiving State are listed in the receiving State's figures. The number of corneas imported to, and exported from, other Eye Banks are listed.

Total corneal transplants within State
